By Bruce Grubbs

Bright Angel Press. Paperback. Book Condition: New. Paperback. 134 pages. Dimensions: 9.0in. x 6.0in. x 0.5in. Exploring With GPS presents a practical approach to using the Global Positioning System in the outdoors using mapping GPS receivers, digital topographic maps, and satellite imagery. The book uses realistic scenarios and plenty of screen shots and photos to show you how to find your way in the backcountry quickly and easily. This book is for hunters, rescue teams, hikers, mountain bikers, anglers, geocachers, backpackers, cross-country skiers, snowshoers, boaters, and everyone who uses recreational GPS in the outdoors. Using GPS, anyone, anywhere on Earth, can find their position within a few feet using an inexpensive hand-held GPS receiver. That simple ability has completely revolutionized every field that uses positioning, navigation, and timing information, including outdoor recreation. Not only can you find your way through the wilderness with unerring precision regardless of weather, location, or time of day, you can work with computers and the World Wide Web to plan your outdoor adventures from home. You can record our trip in the field, download it to a computer, attach labels, graphics, elevation profiles, comments and photos, and then share it with friends or publish it for all...

Reviews

It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover.
