To read **Biochemistry of muscle and nerve** eBook, remember to refer to the link under and download the document or get access to additional information that are in conjuction with BIOCHEMISTRY OF MUSCLE AND NERVE ebook.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 54 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1904 edition. Excerpt: . . . Subject, by St Clair Thomson, M. D. , Leonard Hill, M. B. , F. R. S. , and W. D. Halliburton, M. D., F. R. S., Proc. Roy. Soc., vol. lxiv., p. 343. A full account of the case is given in Dr Thomsons book, The Cerebrospinal Fluid. Cassell and Co., 1899. t The Physiology and Pathology of the Cerebral Circulation, by Leonard Hill. London: Messrs Churchill, 1896. cerebral capillary pressure varies directly and absolutely with vena cava pressure. Thus the cerebral capillary pressure can be raised with great ease by any agency which causes a rise of pressure in the vena cava or cerebral veins. On the other hand, cerebral capillary pressure varies directly, but only proportionately, with aortic pressure, for between the aorta and the capillaries there lies the peripheral resistance. It follows from the above that the easiest methods of raising the cerebral capillary pressure in man are: () By compression of the abdomen, b) By the assumption of the horizontal posture. In this position, however, the rise of venous pressure may be compensated by the fall of arterial pressure, which normally occurs when the body is at rest; this is, no doubt, the case during sleep, (c) By straining or forced expiratory effort, with the glottis closed. By all these methods the vena cava pressure is considerably raised; and by the last method the venous inlets into the thorax may be completely blocked, and the...
