Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Original publisher: Washington, D. C. : U. S. General Accounting Office, 2004 OCLC Number: (OCoLC)57376747 Subject: Congregate housing -- United States. Excerpt: . . . voluntarily enter virtually all of the descriptive information on price range, 19 housing configurations, populations served, and services offered. A provider representative indicated that entering the Web site data initially takes 10 to 15 minutes. Providers can update their information at any time. By February 2004, approximately 40 percent of assisted living facilities had filled in their data fields. DOEA receives about two inquiries a week from providers asking for assistance, but in general the providers find this process relatively easy. Initial skepticism among some providers has diminished as they hear from providers already in the system and they recognize the inherent advantage of free advertising. This is especially beneficial for smaller, independent facilities that cannot match the commercial advertising of the national and regional chains. A state administrator noted that maintenance of the Web site requires some continuing effort. With substantial turnover among facility providers and professionals assisting prospective residents, outreach and training is an ongoing process. DOEA also tries to spot-check at least some key data elements entered into the system, even though the Web site itself prominently displays a disclaimer that provider-entered data have not been verified for accuracy. No formal evaluations of the Web site have yet been undertaken, but informal feedback has been uniformly positive according to both provider and consumer representatives, as well as the state official responsible for its operation. Consumers, and those acting on their behalf, are finding that the Web site has several distinct advantages over previously available information sources. Most importantly, it provides a way to efficiently narrow their search. They...
