GEOCOMPUTATION: A PRACTICAL PRIMER

SAGE Publications Ltd. Paperback. Book Condition: new. BRAND NEW, Geocomputation: A Practical Primer, Chris Brunsdon, Alex David Singleton, Geocomputation is the use of software and computing power to solve complex spatial problems. It is gaining increasing importance in the era of the 'big data' revolution, of 'smart cities', of crowdsourced data, and of associated applications for viewing and managing data geographically - like Google Maps. This student focused book: *Provides a selection of practical examples of geocomputational techniques and 'hot...

Reviews

This sort of pdf is almost everything and taught me to hunting ahead of time and a lot more. It is writter in basic terms and not hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Kyleigh Morissette**

Completely one of the best publication We have at any time read through. We have read and so i am confident that i am going to gonna go through once again once again in the foreseeable future. I am just easily could possibly get a pleasure of studying a written pdf.
